

LEAF
742 DISTINGUISHED ALUMNI AWARD

PRESENTED TO

Sue and Terry Pladson
Tech High School Graduates

Sue is well-known in the St. Cloud Community. She is the former owner of the successful Pladson Realty, receiving numerous awards from her colleagues across the industry, including being named St. Cloud Chamber's Small Business Person of the year! Throughout her life, Sue has spent many years working with non-profits and serving on several boards in the St. Cloud area.

Dr. Terry Pladson is the former CEO of CentraCare in St. Cloud. He has received several recognitions in the healthcare field including being named one of Minnesota's Most Influential Healthcare Leaders by MN Physician Magazine. During his career, Terry published many articles in professional medical journals and has given back to the St. Cloud community through volunteerism and philanthropy.

I somewhat got to know Sue and Terry through their daughter Pam, and especially through their 4 granddaughters, all of whom graduated or currently attend Tech. I can tell you firsthand you've had a profound impact on those granddaughters as they each are amazing young women whom I'm certain will follow in your legacies and contribute remarkably to this world as you have done.
